A serene sunset scene with a bright sun low on the horizon, casting a warm orange and yellow glow across the sky. The sky transitions from a deep orange near the horizon to a soft purple at the top. Silhouettes of mountains are visible against the bright light of the sun. The foreground shows a calm body of water reflecting the colors of the sky.

Universal Laws In the Quantum Field

Darren Starwynn, O.M.D., Quantum Catalyst

Live as an Avatar

Universal Laws govern every aspect of your physical, mental, emotional, spiritual and financial life, whether you are aware of them or not. Knowing these and working with them consciously imbues you with Mastery.

Application of these Laws is the answer to every question, the solution to every problem, and the secrets of raising your vibration and fulfilling the higher purpose of your life. It is spiritual alchemy, the real basis of magic, miracles and synchronicity.

Did I get your attention yet? Good!

The Law of One Mind

There is only ONE INFINITE BEING, ONE INFINITE CONSCIOUSNESS, ONE INFINITE ENERGY, ONE INFINITE INTELLIGENCE, ONE INFINITE LOVE that exists.

Therefore anything that appears to be separate, tired, ignorant or love-less is an illusion.

“I laugh when I hear the fish in the ocean are thirsty” Kabir

Lighten Up and Dis-Illusion Yourself! How? Claim your power to be “AT CAUSE” in your life, be love and uplift your vibration through Universal Law.

The Law of Correspondance

“As Above – So Below”

Whatever you perceive as low, is also high.
Everything exists in higher and lower
octaves, always. Music – energy
frequencies - consciousness

While it is normal and “just human” to
seem to swing helplessly between your
highs and lows, you can CLAIM THE POWER
to raise the level of both your highs and
lows. Know you are multi-dimensional and
CHOOSE which aspect you are focusing on.

You don't do this by resisting or denying
the lows, you do it by fully embracing all
parts of your experience, knowing You are
the Divine lovingly holding all parts of you.

SHIFT YOUR IDENTITY

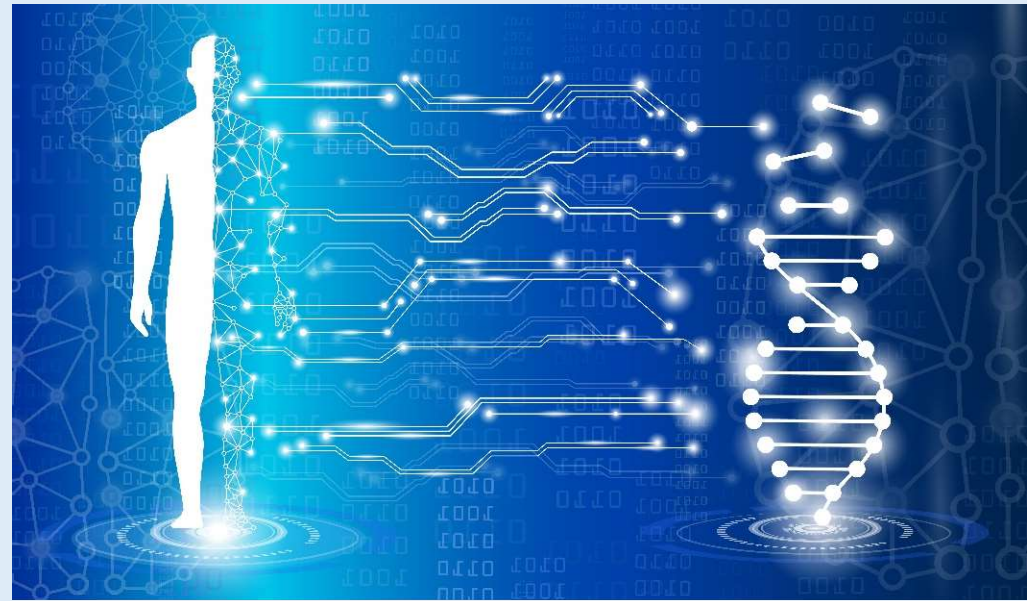

The Law of Vibration

“Everything vibrates, nothing is at rest”

You are made up of patterns of vibrations.
As a sensitive transceiver, you tend to
entrain to (resonate with) the vibrations of
what you focus on and believe in.

Putting your attention on pure love, spirit,
Christ, Goddess, light, truth, humor
entrains those vibrations into your body
and mind. Watching TV news and other
discordant vibrations tends to put you in
accord with fear, chaos and manipulation.
You vibrate with whatever you agree with.
Look closely at what lowers your vibration,
and what elevates your vibration and claim
your power to CHOOSE WISELY.
You Create through vibrations.

The Law of Polarity

“Everything is Dual, Extremes of Anything Turn Into It's Opposite”

You can balance any thing, or any mental/emotional/spiritual state by applying its opposite pole.

What appears to be opposites are actually differing degrees, or vibrations of the same thing. Hot and cold are different degrees of one thing – radiant energy.

How to cure polarization? Appeal to that which is common – love/shared purpose.

As a Quantum Healer – you help others to raise their vibration by first elevating your own into attunement with the Quantum Field using the Ascension Practices, then infuse the other. This is “extending the Quantum Field.”

Watch out for beliefs! **By Law they are always only half-true!**

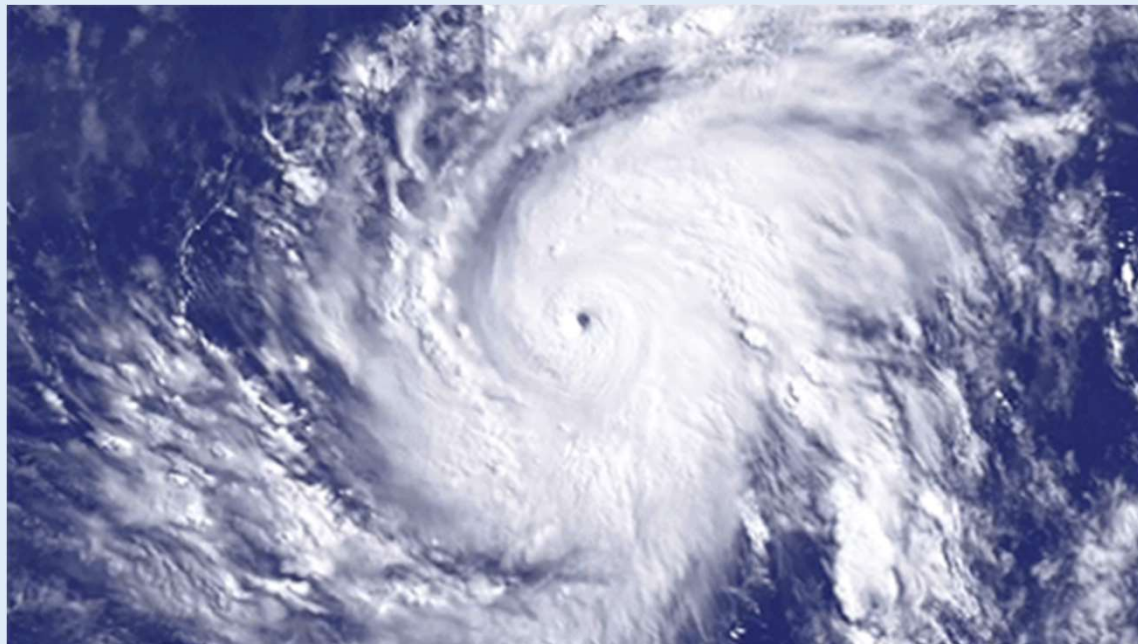

The Law of Rhythm

“Everything flows in and out and has tides”

We are part of nature, which expresses seasons, tides and cycles of all kinds.

Animals and plants live in accord with the cycles and rhythms of nature. Only humans (influenced by the patriarchal control system) can attempt to control and insulate ourselves from nature. This is a major cause of sickness and mental/emotional disturbances.

Balancing the chakras and spending time in nature tends to put people in accord with the principle of rhythm. See the bigger picture of the rhythms of life.

The Law of Cause & Effect

“Every effect has a cause”

There is always a CAUSE for every EFFECT in your life (whether you see it or not).

Empowerment / Success / Power / Healing come from claiming the power to be AT CAUSE – instead of being at the EFFECT of other people/the media/government/peer pressure/family, etc.

As an Avatar creator being you claim being at CAUSE by acknowledging your true desires and motivations – your true path – and committing to creating (co-creating with the Divine) what you want and are here to express.

You do that by enthusiastically using the tools of visualization, Love, feeling, choice, co-creation and inspired actions guided by your Higher Sense Perception.

The Law of Gender

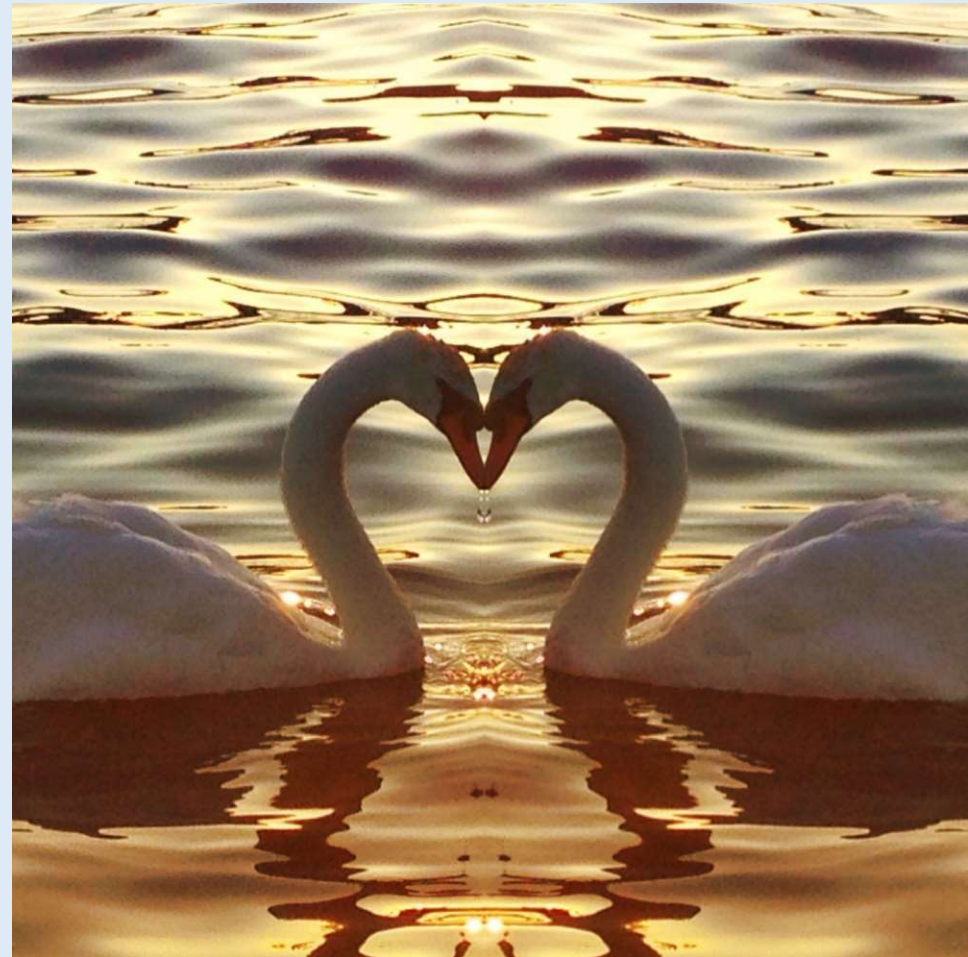

“Everything has a masculine & feminine aspect”

The noun SEX usually refers to interplay (intercourse) of male and female energies - regardless of your gender /orientation.

Anytime you (or a team of people) are in the creative flow you are in a state of intercourse between male and female poles.

Orgasm is a rush of mingled male + female energies being expressed or released. It is possible to cultivate a state of more subtle creative orgasm within your own body through the Radiance. Removing self-judgment, self-rejection and all forms of giving your power away opens up this state and energizes you.

We must work toward balancing of male-female poles in our self and our world!

The Law of Use

Although not one of the seven major Laws, this is a vital one.

This Law states: If you have an inner gift or superpower it is meant to be used to bless and benefit yourself and others.

If you neglect using and sharing your superpowers their power can turn against you, causing various forms of imbalance and suffering.

Be resolved to develop and share your gifts! Then you are an expression of Divinity in fulfillment.
